Blink Level 2 Wall Mount Charger

Simply Smarter Wall Mount Design

The Blink Level 2 Wall Mount Electric Vehicle (EV) Charger provides a convenient method for charging Electric Vehicles. The design provides intelligent, user-friendly features to safely and easily charge.

Benefits of Blink’s Unique Design

• Modern, stylish appearance
• Ease of installation
• Convenient configuration for a wide variety of physical layouts
• Convenient cable management for long reach and storage between uses
• Connector holster for protection and storage
• Intuitive connector docking
• Conscious design for ADA considerations

J1772 Standard EV Connector
(Standard for EV Charging in the United States)

• Updated Cord set with ergonomic design
• Prevents accidental disconnection
• Grounded pole - first to make contact, last to break contact
• Designed for more than 10,000 cycles
• Can withstand being driven over by a vehicle
• Safe for use in wet or dry conditions

Energy Meter

• Internal meter to monitor energy and demand usage
• Supports energy usage data evaluation
• Supports electric utility EV billing when certified to ANSI 12.20 and IEC standards
• Connects with AMI interface and smart meter capability for demand response and energy management

Touch Screen

• Convenient, user-friendly touch screen display
• Charge status and statistics
• Pre-loaded with Blink commercial user interface

Features

- Charge circuit interruption device (CCID) with automatic test
- Ground monitoring circuit
- Nuisance-tripping avoidance and auto re-closure
- Cold load pickup (randomized auto-restart following power outage)
- Certified energy and demand metering
- Multiple modes of communication, including wireless (IEEE 802.11g), cellular, 802.15 protocol capable, and LAN
- Web-based bi-directional data flow
- Cord management system
- Smartphone applications for status changes and notifications of completion or interruption of charge
- Controllable output to support utility demand response requests
- Revenue systems support
- Multiple input current settings to accommodate electric service capability

Safety

- Interlocks with EV drive system so that the EV can not drive when connector is inserted in EV inlet
- De-energizes station if connector and cable are subjected to excessive strain
- Charge current interrupting device (CCID) with automatic test feature for personal protection
- Connector parts are de-energized until latched in EV inlet
- Meets all National Electric Code requirements
- UL Listed

Blink Level 2 Wall Mount Charger

Specifications

<table>
<thead>
<tr>
<th>Specification</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Input Voltage</td>
<td>208 VAC to 240 VAC +/- 10%</td>
</tr>
<tr>
<td>Input Phase</td>
<td>Single</td>
</tr>
<tr>
<td>Frequency</td>
<td>50/60 Hz</td>
</tr>
<tr>
<td>Input Current</td>
<td>30 Amps (maximum), 12A, 16A, 24A available</td>
</tr>
<tr>
<td>Breaker Size</td>
<td>40 Amps; settings at 15A/20A/30A available</td>
</tr>
<tr>
<td>Output Voltage</td>
<td>208 VAC - 240 VAC +/- 10%</td>
</tr>
<tr>
<td>Output Phase</td>
<td>Single</td>
